

Snapshot of Our Week

Week of 9/10/18-9/14/18

We are learning all about using strategies for learning in Second Step. We have to use watching eyes, listening ears, still bodies and quiet voices. Ask your child to tell you what self-talk is!

Highlight of our week

Math

This week in math we kept working on finding groups "hiding" inside bigger numbers. We started using a tool called a "number bond" to organize the groups and lay the foundation for equation writing. We colored caterpillars to show the combinations to numbers 5, 6, and 7. We practiced writing numbers up to 6.

Science

We have been busy reading about and observing the hard working ants in our ant farm. We are making observations in our ant journals. We are practicing using labels in our pictures. We made ant headbands and sang "the Ants Go Marching."

Literacy

This week we have been learning all about building stamina as readers. We are using "power spots" for reading. We are learning how to care for books and how to really use reading time to look carefully at pictures, letters and words. We also started reviewing letters and sounds from last year. We are blending the sounds to make words and we are also reading words with these sounds in sentences. We are working on proper handwriting and are working on our names and letters.

Upcoming Events

- Sept. 14 - TONIGHT!!
- Welcome BBQ: 5:00 - 7:00
- Sept. 16 - Rosh HaShannah Begins
- Sept. 12 - Hijri (Islamic New Year)
